19 August 1977

MEMORANDUM FOR: Acting Deputy Director of Central Intelligence

FROM : Herbert E. Hetu,
Assistant to the Director for Public Affairs

SUBJECT : Request of the Washington Chapter of the
National Security Industrial Association to
hold a session at Headquarters with presenta-
tion by an Agency Official

1. NSIA's proposal is attached and is self-explanatory. Mr. Fitzpatrick, the Program Chairman, remembers being a member of a group from the American Institute of Aeronautics and Astronautics which was entertained at Headquarters in the way he proposes for his NSIA group--an evening session, a buffet supper, some kind of tour, and a presentation from an Agency speaker. We have informed Mr. Fitzpatrick that our facilities do not permit anything nearly so extensive, but that we would entertain a request for a weekday session here at headquarters with an Agency speaker. We indicated it was unlikely that we could provide lunch, but in the event we could, that it would be at their expense. Mr. Fitzpatrick was quickly agreeable, saying his group was very flexible and would appreciate whatever the Agency could provide. He indicated he would expect some 200 members and wives to attend, and was anxious that something be arranged.

2. We recommend serious consideration be given this request, and would hope that at least the group could be invited to the auditorium to hear an appropriate senior agency official, preferably the ADDCI, the DDS&T or the ADDA. We believe we should also give some consideration to arranging lunch, possibly in the Rendezvous Room.

3. The Washington Chapter of NSIA would be an excellent forum in which to tell the Agency side of its relationship with the industrial world. Attendees would include some of the most important and influential people from Washington and the area. It seems to us that the Agency could only benefit from this contact which would be entirely consistent with our Outreach program.

Pub-Off

4. We have told Mr. Fitzpatrick that we could not promise anything but that we would give him an early indication of our reaction to his request. This is so that in the event we cannot accommodate the group, he will have time to make other arrangements. If you agree in principal to receive Mr. Fitzpatrick's group. My staff stands ready to work out the necessary details.

Public Affairs Officer
Central Intelligence Agency
Washington, DC 20505

Dear Sir:

It is our understanding that, under certain circumstances, your Agency will permit an organization such as ours to hold a meeting at your facility. The purpose of this letter is to respectfully request that the Washington Chapter of the National Security Industrial Association be given such an opportunity.

For your information, NSIA is special-purpose association of approximately 260 American industrial and research companies of various types and sizes, representing all segments of defense industry in every part of the United States. Founded at the instance of James Forrestal, then Secretary of the Navy and later the First Secretary of Defense, the Association's essential role and purpose is to foster an effective working relationship and good two-way communications between the Government and the industry which supports it, in the interest of national security. Our particular province is the business and technical aspects of the government-industry relationship, covering the fields of procurement, research and development and logistics policy and procedures. One of our special concerns is the maintenance of a healthy and competitive defense industrial base as a vital component of national security. The Association has chapters in key industrial centers of the nation, as well as Washington, DC. The Washington Chapter is the largest and most active, having some 700 members.

Guest speakers at our Washington meetings during the past few years have included the Vice President of the United States, the Secretary of Defense, Senators, Representatives, Secretaries of the Armed Services, and Chiefs of Staff of the Services.

20 July 1977

Approved For Release 2004/03/12 : CIA-RDP80M00165A002400150008-5

If agreeable, we would like to hold a meeting of the Washington Chapter at your facility on a weekday evening, preferably during the last three weeks in November, and include a buffet supper, tour of the facility and a presentation by a representative of the Agency. If this can be arranged, we estimate that we could have up to 200 members and possibly their wives present. Exact numbers would be provided well in advance of the prescribed date.

Please address your reply to the undersigned.

Sincerely,

John M. Fitzpatrick

Admiral Stansfield Turner, Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Admiral Turner,

I read your address to the Commonwealth Club of August 5th as reported in our journal, The Commonwealth. I was particularly interested in noting that the Central Intelligence Agency published a report on the world energy situation and two subordinate studies on the Soviet and Chinese energy prospects. I would be interested in reviewing these. If they are generally available, please inform me; otherwise, could you give me the names of the reports so that I might try to locate them through our library. I teach several courses on energy use and policy and would find it valuable to have the material mentioned in those reports.

Thank you for your assistance.

Yours truly,

Richard C. Dorf
Dean
